

March 8, 2004

Dear Members of American Fisheries Society,  
It was an honor to receive the landowner award this past month. My three brothers (Joe, Mike, and Darris) and I want to thank you for the honor.

I also understand the Montana Chapter of the American Fisheries Society has contributed money to projects in the Graves Creek watershed. Thanks for helping support the cause for increasing fish habitat in Graves Creek. Considerable work has been done but there needs to be much more work done in the watershed.

If any member is near this area and would like to see the projects, feel free to give me a call and I can show you around.

Thanks again for the award and your financial contributions to this area.

Patrick D. Flanagan  
155 Grave Crk. Rd.
